

THE GREATEST DISCOVERY

TURN THE PAGE

I'm at the start of something exciting
It is a feeling that happens every time
That I get a new book that I haven't seen before

That is the part that's really inviting
The expectation that comes the moment I'm
Just about to open up the covers and explore

All those new ideas (new thoughts, new ways, new faces)
Fabulous frontiers (new paths, new skies, new places)
I'm at the start of something exciting
And then I turn the page

'Cause I can hardly wait to see
Exactly how things all will be
And if it all ends happily this time
And then I turn the page
When the excitement is intense
Each moment filled up with suspense
The satisfaction is immense each time
I get to turn the page

I'm at the start of something amazing
It is a feeling that I come to expect
When I open up the cover and begin to read
Yes I know that the moment I'm gazing
At the words and pictures in my hands
That I'm on a new adventure, ready to proceed

Come on hoist the sails (It's time to get things started)
This trick never fails (It's time that we departed)
I'm at the start of something amazing
And then I turn the page

THE GREATEST DISCOVERY

TURN THE PAGE (continued)

I jump right in and it feels great
There is no need to hesitate
Though I don't know what things await when I'm
About to turn the page

Another brand new thought appears
I feel my mind is changing gears
And I'm exploring new frontiers each time
I get to turn the page

And when ideas jump out at me
I give them a chance to see
Where I have come from
Where I am going
Words and pictures always flowing
Feeling the excitement growing when
I get to turn the page

'Cause I can hardly wait to see
Exactly how things all will be
And if it all ends happily this time
And then I turn the page

Another new idea appears
I feel my mind is changing gears
And I'm exploring new frontiers each time
I get to turn the page.

THE GREATEST DISCOVERY

THE WINNER

You haven't seen the best of me
Not by a long shot
You've no idea what I can be
Don't know what I've got
Well I've got something inside
something that can't be denied
And soon you're all gonna be astounded
I know that I'll find a way,
It's getting closer each day
That my potential will be unbounded
I'm gonna be the winner,
someone everybody knows
I'm gonna be the winner and I'll show the world how I can shine
The winner, someone that you can't ignore
I'm gonna be the winner and the future will be mine.

I'm sure I know that you may laugh and say I'm dreaming
But one day I'll walk through a crowd and they'll be screaming
Though it is not clear to me, exactly what it will be
That's gonna lead to this transformation
That is no reason to think
That I am not on the brink
Of getting all kinds of admiration

I'm gonna be the winner,
someone everybody knows
I'm gonna be the winner and I'll show the world how I can shine
The winner, someone that you can't ignore
I'm gonna be the winner and the future will be mine.

A winner, I'm gonna be a winner
yeah-yeah

I'm gonna be the winner,
someone everybody knows
I'm gonna be the winner and I'll show the world how I can shine
A winner, someone that you can't ignore
I'm gonna be the winner and the future will be mine.

THE GREATEST DISCOVERY

LISTEN

Do you feel it?

Do you feel inside that what you think is right

Do you lie and bed and stay awake all night

Convince yourself you have the answers

Next day

Do you make sure everybody takes your word

Tell the others their opinions are absurd

And that they all should pay attention

To you.

Do you feel the power running through you

You need to understand you're not the only one

Just learn to listen. There is no need to fight

'Cause being louder does not mean you are right

Take time to listen to other points of view

You need to listen and not just to be heard

It isn't right just because it is preferred

You'll never learn if you keep on pushing through

You need to listen

Now everyone's entitled to their own opinion that is true

But if someone disagrees they're not having a go at you.

Just learn to listen. There is no need to fight

'Cause being louder does not mean you are right

You need to listen and not just to be heard

It isn't right just because it is preferred

You'll never learn if you keep on pushing through

You need to listen

Listen

THE GREATEST DISCOVERY

HERO

Everybody wants something to celebrate
Everybody likes to wish upon a star
But if you find it hard to celebrate
Maybe try to celebrate the person that you are

If you are feeling down
Try getting on your feet
Look up and say I'll be okay

Say it and repeat repeat repeat
And we can all be heroes by refusing to give in
We can all be heroes, be the type of person we admire
The heroes are the ones who don't stay down
We can all be heroes we just all need to aim higher

And we can all be heroes by refusing to give in
We can all be heroes, be the type of person we admire
The heroes are the ones who don't stay down
We can all be heroes we just all need to aim higher
