

SCIENCE WEEK IN SCHOOLS 2022

WINDOW TO THE WORLD A STEM STORY

*Celebrating the 2022 National Science Week School Theme:
Glass, More Than Meets The Eye!*

THE WONDERS OF GLASS

Glass is essential to us all from computers to windows, from reading to light bulbs, from medicine to communication.

SEE THE IMPACTS ON OUR HEALTH

Looking into glass we can see solutions for our healthcare and medicine, from glasses to prosthetics, from braces to X-ray shields.

HOW GLASS CONNECTS THE WORLD

Glass connects the world through fibre optics to lightwaves, used in our homes and work, our TV, radio, internet and mobile phones.

GLASS LEADING A SUSTAINABLE FUTURE

Glass is 100% endlessly recyclable! From packaging to waste prevention, from solar energy to reducing carbon emissions.
