## IT'S GONE

**MARLEY:** There's a space but it wasn't always empty  
There's a place where something used to be  
I can feel it is hard around the edges of this hole that sits inside of me  
And I'm pretty sure what's missing is important, that's it's something that I need  
Now I have to find a lead  
Track down this thing that might be so important that I can't afford the cost  
Of it remaining lost.  
It's gone and I don't know how it happened  
But it's gone, where it was there's just gap and  
Now it's gone and I'm not sure what to do  
It is strange to wake and find that something's missing, something that you know was there  
Now it isn't anywhere  
And it's hard to carry on when something's missing, when you're feeling incomplete  
Did I accidentally press delete?  
It's gone and I don't know how it happened  
But it's gone, where it was there's just gap and  
Now it's gone and I'm not sure what to do  
Longing. I've heard of longing  
It isn't wrong to feel that something isn't right

**STORYTELLER:** There's a space but it wasn't always empty  
There's a place where something used to be (REPEAT)

**MARLEY:** It's gone and I don't know how it happened  
But it's gone, where it was there's just gap and  
Now it's gone and I'm not sure what to do

## YESTERDAY, TODAY, TOMORROW

**MARLEY:** I'm going back to see if I can piece together  
Where I've been and what I'd done and who I saw and why I did things  
I'm going back so hopefully I can remember  
What it is that I have lost so I'll be whole and feel much better  
I've been told if something's lost retrace your steps and you may find it  
So I'll retrace my steps to find the way to yesterday.  
Yesterday's a place that you can visit but you cannot change it  
Yesterday is full of things that you wish you'd done differently  
And hopefully I'll find the thing I think I left behind  
As long as I remember and things stay  
As they were yesterday

**STORYTELLER:** Rather than look backwards it's okay if you live in the moment  
Who knows what can happen if you stay right here today?  
Today's the kind of place that you can never really take for granted  
For today's a place you think you know but you have never been  
And if your day seems plain sometimes you have to look again  
Appreciate whatever comes your way  
So you don't waste today

**TOGETHER:** See the face up on the clock and watch the hands go round.  
It's something over which you've no control  
Try to make the hands go backwards, or make time stand still  
The hands will still move forward towards their goal  
Which is the future.....  
Tomorrow may be challenging but also it's filled with potential  
Tomorrow is the kind of place where hopes and wishes can come true  
Don't let yourself get all caught up in problems that may never happen  
Don't worry if things bother you today, tomorrow's on its way.

## DO IT

If you are feeling that you can't be bothered  
If you are feeling that you just don't care  
Then I think it's time for you to start to  
Remember what it was that made you want to follow  
All the things that you would like to spend your time on  
Remember what it's like to really feel excited then  
Do it do it do it do it do it do it like you really mean it  
Do it do it do it do it do it do it like you really care  
I know I know I know I know I know it can be hard to get things started  
But do it do it do it do it do it do it to make sure that the good times come your way  
So think of all the things that make you happy  
So think of things that make you feel inspired  
Think of what it's like to be excited  
Then you'll find a reason to get up each morning  
Then you'll find a reason to not sit at home and  
You will find a reason to look forward to each day  
Do it do it do it do it do it do it like you really mean it  
Do it do it do it do it do it do it like you really care  
I know I know I know I know I know it can be hard to get things started  
But do it do it do it do it do it do it to make sure that the good times come your way  
There is nothing like, like a new beginning  
To make everyone feel like they are winning **(REPEAT 3 TIMES)**  
Whoa – yeah!  
Do it do it do it do it do it do it like you really mean it  
Do it do it do it do it do it do it like you really care  
I know I know I know I know I know it can be hard to get things started  
But do it do it do it do it do it do it to make sure that the good times come your way.

## ALL THE WAY TO NOWHERE

You gotta hang on. Tough it out. Don't let go. Stay with it  
I want it and I want it now is something people say and they expect to get it  
Why should I wait coz waiting's boring, take me to the end or else I'll just forget it  
So many choices but you cannot find the one  
You don't grow bored with almost soon as you've begun  
Half way to anywhere is all the way to nowhere  
And nowhere is the kind of place that no-one wants to be  
Giving up easily will wear you down eventually  
It's better to go all the way or else you'll never see  
How the view's much better from the top  
You won't see the whole picture if you stop  
Half way to anywhere is all the way to nowhere  
And if you want to be somewhere then don't give up so easily

We're always looking for the next thing while the thing we have is still quite new and shiny  
Our appetite for new things is quite huge but yet our patience has become quite tiny  
The problem then is that you're never satisfied  
You're throwing things away that you have hardly tried  
Half way to anywhere is all the way to nowhere  
And nowhere is the kind of place that no-one wants to be  
Giving up easily will wear you down eventually  
It's better to go all the way or else you'll never see  
How the view's much better from the top  
You won't see the whole picture if you stop  
Half way to anywhere is all the way to nowhere  
And if you want to be somewhere then don't give up so easily

Hey hey hey. You want to know the answer for always wanting the next new thing?  
Well let me tell you. It's as easy as this.  
You gotta hang on. Tough it out. Don't let go. Stay with it  
Half way to anywhere is all the way to nowhere  
And nowhere is the kind of place that no-one wants to be  
Giving up easily will wear you down eventually  
It's better to go all the way or else you'll never see  
How the view's much better from the top  
You won't see the whole picture if you stop  
Half way to anywhere is all the way to nowhere  
And if you want to be somewhere then don't give up so easily.

## I DON'T FEEL SO GOOD

I'm all out of luck  
It seems that I'm stuck  
And I don't feel so good.  
I used to think I was the one in charge and everything would go my way  
Because I'm always calling the shots  
But here I am, I can't go anywhere and nobody is listening  
My feelings are all tied up in knots  
And it feels like it's getting darker. I can't move. I'm on my own  
I'm all out of luck  
It seems that I'm stuck  
And I don't feel so good.  
I'm trapped in this hole.  
I have no control  
And I don't feel so good.  
Get me out of here. I don't belong. It's not the kind of place  
That anybody wants to be in for long  
I never realised that I'd be somewhere that I needed help  
In getting out of. I thought I was too strong  
Thought for so long I was foolish, cos I need a helping hand  
I'm all out of luck  
It seems that I'm stuck  
And I don't feel so good.  
I'm trapped in this hole.  
I have no control  
And I don't feel so good.  
Oh, how did this hole become so large  
Hey, I'm supposed to be the one in charge  
I'm all out of luck  
It seems that I'm stuck  
And I don't feel so good.  
I'm trapped in this hole.  
I have no control  
And I don't feel so good.
