

# SCIENCE WEEK IN SCHOOLS 2023

## LIVESTREAM!

# AI ACADEMY

perform!  
EDUCATION

## Livestream Program

The livestream performance is hosted by your personal Actor/Educator interacting and discussing **live-in-real-time** with your students and classrooms, as they introduce the filmed educational theatre episodes of the exciting **Science Week in Schools presentation**. The livestream lesson includes interactive segments for students to answer quizzes connected to the learning points, have guided discussions on the educational themes and ask questions in real time!

The educational episodes are captured live-on-film with multi-cameras and in high definition, meaning everyone will be watching from the best seat in the house!

## Interactive Discussions

The session includes interactive discussions with the live host for your students to explore the themes and key questions connected to the learning points.

## Digital Resources

With your secure school link, the livestream performance will be available for your whole school to watch, in class or at home, on the date/time of your scheduled incursion.

The **Livestream e-learning package** also includes an on-demand recording of the livestream incursion to re-watch and review all year long! Alongside this is a range of hands-on educational tools with online interactive games, quizzes, videos and lesson plans for classroom and at home to extend the engagement and learning, all available for the **entire school year!**

## National Science Week 2023 Overview

### *AI is the future of STEM!*

**AI Academy** celebrates the 2023 National Science Week school theme **Innovation: Powering Future Industries**.

Your live host will present comedic **science sketches** filmed with our professional Actor/Educators that explore **AI Innovation in industry and science**. Students will interact, laugh and learn about advances in technology, and the ways in which STEM is leading our future study and career pathways.

Join the **AI Academy** where students will learn that:

- Coding is useful and powerful (*an Intern lands at his dream tech start up*)
- Innovation drives technology (*two students at the school science fair*)
- Technology advances our lives (*tech is more than a game*)
- How AI impacts our future (*from medicine to mining to manufacturing*)

## Quick Information

### Term 3 LIVESTREAM tour dates:

Monday 7th Aug - Friday 25th Aug

### NATIONAL SCIENCE WEEK 2023:

Saturday 12th Aug - Sunday 20th Aug

### Available:

Any school, anywhere Australia-wide

### Duration:

40 minutes

### Suitability:

Grades 4 - 6 (Primary version)

Grades 7 - 9 (Secondary version)

### Location:

Livestream, at-school & at-home
